

AHAMED SOWKEY

Colombo, Sri Lanka • +94 76 9343045 • sowkey2mail@gmail.com • linkedin.com/in/ahamed-sowkey

Information Technology graduate from SLIIT with hands-on experience in full-stack (MERN), mobile application development, and AI-based solutions. Proven ability to design, develop, and deploy scalable, user-focused applications through academic projects and industry internship experience. Skilled in debugging, performance optimization, and collaborative development, with experience in Python, TensorFlow, and modern web and mobile technologies.

Experience

Software Engineer Intern | Gamage Recruiters (PVT) LTD

Feb 2025 – Aug 2025

- Developed, tested, and deployed software modules.
- Wrote clean, maintainable, and efficient code.
- Worked with team members to ensure smooth project delivery.
- Debugged and resolved technical issues in applications.

Projects

Deep Retinal Insights – AI-Based Retinal Disease Prediction System (Final Year Research Project)

- Developed an AI-based system to analyze retinal images for disease detection and prediction.
- Implemented deep learning and machine learning models for disease classification and progression analysis.
- Applied image processing techniques to improve accuracy in medical diagnosis.
- Technologies: Python, TensorFlow, OpenCV, Scikit-learn, Flask

Veritas Campus Learning Management System

[GitHub Link](#)

- A full-stack web-based learning management system for managing courses, students, and academic content
- Tools & Technologies: MERN Stack / Node.js, Express.js, React.js, MongoDB

Web-Based Book Store

[GitHub Link](#)

- A full-stack web-based e-commerce system for browsing, searching, and ordering books
- Tools & Technologies: Spring Boot, Spring Security, Thymeleaf, MySQL, JWT

Diet Plan Management System

[GitHub Link](#)

- A user-friendly system to help individuals track and manage their dietary habits.
- Tools & Technologies: HTML, CSS, JavaScript, XAMPP, PHP

Personal Financial Management App

[GitHub Link](#)

- An Android app for managing personal finances with Firebase for user authentication and data storage.
- Tools & Technologies: Kotlin, Firebase, Android Studio

Online Food City Management System

[GitHub Link](#)

- A web application for managing food city operations using the MERN stack.
- Tools & Technologies: MongoDB, Express.js, React.js, Node.js, VS Code

Education

BSc (Hons) in Information Technology (Expected: September 2026) | SLIIT, Malabe

2026

GCE Advanced Level – Technology Stream | Central College, Addalaichenai

2019

Certifications

AWS Academy Cloud Foundations – <i>Amazon Web Services</i>	Verify
Learn DevOps for Web Development Bootcamp – <i>Microsoft Learn Student Ambassador</i>	Verify
Backend Web Development using JavaScript, Node.js & Express – <i>Google Developer Students Club KIIT / Microsoft Learn Students Club KIIT</i>	Verify
Learn DevOps for Web Development – <i>Google Developer Students Club KIIT Chapter</i>	Verify
Learn DevOps for Web Development Bootcamp – <i>Microsoft Learn Student Ambassador</i>	Verify
MongoDB Certified Developer, Associate (C100DEV) – <i>MongoDB</i>	
Introduction to C – <i>sololearn</i>	
Data Science Bootcamp – <i>Datamites</i>	
Containers on Azzure – <i>STYAVA.DEV</i>	
Image Classification with Azure Custom Vision – <i>Microsoft Learn Student Ambassador</i>	
Introduction to Azure Cognitive Services – <i>Microsoft Learn Student Ambassador</i>	
Create a Profile and Network on LinkedIn – <i>courseera project network</i>	Verify
Site Reliability Engineering Workshop – <i>IEEE Computer Society</i>	

Skills

Java, Kotlin, Python, ASP .NET, C++, C, Node.js, React.js, MERN Stack, HTML, CSS, JavaScript, SQL, Git, GitHub, Visual Studio Code, IntelliJ IDEA, Android Studio, Firebase

Competencies

Strong Communication and Collaboration • Agile Software Development Methodologies • Problem-Solving and Debugging Skills
